# The Complete A-Z Guide for Forex Broker Sales Teams & Real Estate Professionals

***Position-Based Scripts | Objection Handling | Closing Techniques***

***Insights from the World's Top 20 Sales Experts***

**Author:** GoGang Trading Education

**Edition:** 2026

**Price:** \$29

**Format:** PDF Ebook, Instant Download

## TABLE OF CONTENTS

1. The Mindset Before You Dial
2. The Anatomy of a Perfect Cold Call
3. World's Top 20 Sales Experts — Key Principles
4. Position-Based Cold Calling Framework
5. FOREX BROKER: Complete Script Library
6. REAL ESTATE: Complete Script Library
7. Objection Handling Encyclopedia
8. The Follow-Up System
9. Metrics, KPIs & Daily Routines
10. Advanced Techniques & Closing

## CHAPTER 1: THE MINDSET BEFORE YOU DIAL

### ***Why 90% of Callers Fail Before They Speak***

The phone weighs 1,000 pounds for most salespeople. Not because of the rejection — but because they haven't built the right mental framework.

### ***The 3 Mental Pillars of Elite Cold Callers***

## Pillar 1: You Are NOT Selling — You Are Solving

Every person you call has a problem. In forex, they want better returns, safer capital, or professional guidance. In real estate, they want to sell faster, buy smarter, or invest profitably.

Your job is not to push. Your job is to identify if you can help.

## Pillar 2: Rejection is Data, Not Defeat

Grant Cardone says: "Every no gets me closer to yes." Track your ratios. If you convert 1 in 20, then every rejection is 5% progress toward a sale.

### Pillar 3: Energy Transfers Through the Phone

Jordan Belfort's "Straight Line System" teaches that tonality carries 45% of communication impact. If you sound bored, the prospect feels bored. If you sound certain, the prospect feels trust.

## The Pre-Call Ritual (5 Minutes That Change Everything)

1. **Stand up** — your diaphragm opens, voice projects
2. **Smile** — it changes your vocal tone (yes, they can hear it)
3. **Review your script** — not to memorize, but to internalize the flow
4. **Set micro-goals** — "I will get 3 conversations in the next 30 minutes"
5. **Anchor your why** — commission, family, career growth — whatever drives you

## CHAPTER 2: THE ANATOMY OF A PERFECT COLD CALL

## The 7-Step Cold Call Structure

Every successful cold call follows this framework regardless of industry:

### **Step 1: Pattern Interrupt**

The prospect expects a salesperson. Break that expectation.

**Bad:** "Hi, my name is John from XYZ Broker..."

**Good:** "Hey [Name], quick question before you hang up..."

The pattern interrupt buys you 5 extra seconds of attention.

### **Step 2: Permission Frame**

Asking for permission paradoxically gives you more control.

*"I know I'm calling out of the blue. Can I take 27 seconds to explain why, and then you decide if it's worth continuing?"*

Why 27 seconds? Specific numbers feel honest. "A minute" sounds like a lie.

### **Step 3: Value Statement**

This must answer: "What's in it for me?" in under 10 seconds.

**Forex Example:** "We help traders get funded accounts with up to 1:500 leverage and zero-spread ECN execution."

**Real Estate Example:** "I just helped your neighbor sell 12% above asking in 8 days — I wanted to see if you'd like similar results."

### **Step 4: Qualifying Questions**

This is where amateurs pitch and professionals listen.

Ask questions that reveal:

- **Need** — Do they have a problem you solve?
- **Authority** — Can they make the decision?
- **Timeline** — Are they ready now or later?
- **Budget** — Can they afford your solution?

### **Step 5: Tailored Pitch**

Based on their answers, customize your response. Never deliver the same pitch twice.

### **Step 6: Handle Objections**

Every objection is a buying signal in disguise. (Full scripts in Chapter 7)

### **Step 7: Close / Next Step**

Always end with a clear next action:

- Book a demo
- Schedule a callback
- Send account opening link
- Set a property viewing

## **CHAPTER 3: WORLD'S TOP 20 SALES EXPERTS — KEY PRINCIPLES**

### **Learn From the Best, Apply to Your Calls**

| # | Expert | Core Philosophy | Apply To Cold Calling |

|---|-----|-----|-----|

| 1 | **Jordan Belfort** | Straight Line Persuasion — control the conversation's direction | Keep every call moving toward the close in a straight line |

| 2 | **Grant Cardone** | 10X Rule — massive action beats talent | Make 10x more calls than you think necessary |

| 3 | **Zig Ziglar** | "You can have everything you want if you help enough others" | Lead with value, not features |

| 4 | **Brian Tracy** | Eat That Frog — do the hardest task first | Make cold calls first thing every morning |

| 5 | **Jeb Blount** | Fanatical Prospecting — consistent daily pipeline filling | Never skip a prospecting session |

| 6 | **Chris Voss** | Never Split the Difference — tactical empathy | Use "labeling" to disarm objections |

- | 7 | **Daniel Pink** | To Sell is Human — attunement, buoyancy, clarity | Match the prospect's energy before pitching |
- | 8 | **Neil Rackham** | SPIN Selling — Situation, Problem, Implication, Need-Payoff | Ask questions in this exact order |
- | 9 | **Chet Holmes** | The Ultimate Sales Machine — pigheaded discipline | Same script, same time, same energy daily |
- | 10 | **Tom Hopkins** | How to Master the Art of Selling — word choices matter | Replace "cost" with "investment", "contract" with "agreement" |
- | 11 | **Jeffrey Gitomer** | People buy from people they trust | Build rapport before ANY pitch |
- | 12 | **Sandler Training (David Sandler)** | Reverse selling — let the prospect "discover" the need | Ask, don't tell |
- | 13 | **Og Mandino** | The Greatest Salesman — persistence and habits | Develop unbreakable daily routines |
- | 14 | **Dale Carnegie** | Win friends, influence people — genuine interest | Use the prospect's name 3x per call |
- | 15 | **Oren Klaff** | Pitch Anything — frame control | Whoever controls the frame wins the deal |
- | 16 | **Mike Weinberg** | New Sales Simplified — targeted prospecting | Quality lists > quantity dials |
- | 17 | **Mark Hunter** | High-Profit Prospecting — sell value not price | Never compete on spread/commission alone |
- | 18 | **Anthony Iannarino** | The Lost Art of Closing — trade value at every step | Each interaction must provide value to earn the next |
- | 19 | **Aaron Ross** | Predictable Revenue — specialize roles | Separate prospectors from closers |
- | 20 | **Trish Bertuzzi** | The Sales Development Playbook — process beats talent | Build repeatable, measurable systems |

### ***The 5 Universal Laws (From All 20 Experts Combined)***

1. **Preparation beats talent** — research before every call
2. **Questions beat pitches** — the person asking controls the conversation
3. **Tonality beats words** — HOW you say it matters more than WHAT you say
4. **Consistency beats intensity** — 20 calls/day for 30 days beats 200 calls in one day
5. **Follow-up beats everything** — 80% of sales happen after the 5th contact

## CHAPTER 4: POSITION-BASED COLD CALLING FRAMEWORK

## What is Position-Based Cold Calling?

Position-based calling means adapting your entire approach based on YOUR role/position in the company AND the prospect's position/level.

A junior sales agent doesn't call like a senior account manager. A retention specialist doesn't call like a new-client acquisition rep.

## The Position Matrix

| YOUR POSITION           | → | CALL STYLE                                           |
|-------------------------|---|------------------------------------------------------|
| Junior Sales Agent      | → | High energy, script-heavy, volume focused            |
| Senior Account Mgr      | → | Consultative, relationship-first, selective          |
| Team Leader             | → | Authority-based, "I'm calling personally because..." |
| Retention Specialist    | → | Empathy-led, save-focused, value reminder            |
| IB (Introducing Broker) | → | Partnership pitch, mutual benefit frame              |

| PROSPECT'S POSITION | → | YOUR APPROACH                         |
|---------------------|---|---------------------------------------|
| Retail Trader/Buyer | → | Education + opportunity               |
| HNW Individual      | → | Exclusivity + white-glove service     |
| Business Owner      | → | Time savings + ROI focus              |
| Experienced Trader  | → | Technical specifics + execution speed |
| First-Time Buyer    | → | Hand-holding + simplicity             |
| Investor            | → | Numbers + track record                |

## Position-Based Opening Examples

### Junior Agent → Retail Trader:

*"Hi [Name], this is [You] from [Company]. I help people like you get started with forex trading with proper guidance. Quick question — have you ever traded before, or is this something new you're exploring?"*

**Senior Manager → HNW Client:**

*"Good morning [Name], this is [You], Senior Account Manager at [Company]. I'm calling you directly because we've identified an opportunity that's specifically suited to portfolios above \$50,000. Do you have 2 minutes?"*

## Team Leader → Experienced Trader:

*"Hey [Name], [You] here — I head up the trading desk at [Company]. I noticed you've been trading with [Competitor] — I wanted to personally discuss why our ECN execution might*

*save you 2-3 pips per trade. Worth a quick chat?"*

#### **Retention Specialist → Inactive Client:**

*"[Name], it's [You] from [Company]. I noticed your account hasn't had activity in 3 weeks. No pressure at all — I just wanted to check if everything's okay and if there's anything we can help with?"*

#### **IB Partnership Pitch:**

*"Hi [Name], I'm [You] from [Company]'s partnership division. I help introducing brokers earn up to \$15 per lot on client trades. If you're already referring traders, I'd like to show you how we make that more profitable for you."*

## **CHAPTER 5: FOREX BROKER — COMPLETE SCRIPT LIBRARY**

### ***Script 1: New Client Acquisition (Cold Lead)***

**Scenario:** Calling a lead who submitted interest but hasn't opened an account.

YOU: "Hi [Name], this is [Your Name] calling from [Broker Name].  
You registered on our platform recently — I'm just calling to  
help you get started. Did I catch you at an okay time?"

[If YES]

YOU: "Great. Quick question — what made you interested in forex  
trading? Was it someone's recommendation, or have you been  
researching on your own?"

[LISTEN — then respond based on their answer]

IF NEW TO TRADING:

YOU: "Perfect. A lot of our successful clients started exactly  
where you are. What we do differently is provide you with  
a dedicated account manager — that's me — plus free education  
and a demo account to practice risk-free.

Would you like me to set up your live account right now so  
you can access everything? It takes about 3 minutes."

IF EXPERIENCED:

YOU: "Got it. So you know the game already. What's most important  
to you — tight spreads, fast execution, leverage, or the  
platform itself?"

[LISTEN]

YOU: "We offer [match their need]. Most of our experienced traders

tell us the difference is our [specific differentiator].

What if I set you up with a VIP account and you test it with a small deposit? You'll see the difference on the first trade."

## ***Script 2: Reactivation Call (Dormant Account)***

**Scenario:** Client opened an account but hasn't deposited or traded in 30+ days.

YOU: "Hey [Name], it's [Your Name] from [Broker]. How are you?"

[Small talk – 10 seconds max]

YOU: "Listen, I noticed your account is all set up but you haven't made your first trade yet. I wanted to check – was there something holding you back? Maybe something I can help with?"

COMMON RESPONSES & HANDLING:

"I've been busy"

YOU: "Totally understand. The good news is, with our platform you can set up in literally 5 minutes. Would you prefer I walk you through it right now while you're on the phone, or should I send you a 2-minute video guide?"

"I'm not sure if it's for me"

YOU: "Fair enough. What specifically concerns you – the risk, the complexity, or something else?"

[LISTEN – then address specifically]

YOU: "What if you started with just \$100 on a micro account? That way you experience real trading with minimal risk. I'll monitor your first few trades and give you guidance. Sound fair?"

"I went with another broker"

YOU: "No problem at all. Out of curiosity, what made you choose them? ... [LISTEN] ... Interesting. A lot of traders actually run two accounts to compare execution. Would you be open to doing a side-by-side test? We're confident in what we offer."

## ***Script 3: Upgrade / Upsell Call***

**Scenario:** Active client on basic account, eligible for premium/VIP tier.

YOU: "Hi [Name], [Your Name] here – your account manager at [Broker]. I've got some good news for you."

PROSPECT: "What's that?"

YOU: "Based on your trading volume over the past [X weeks], you now qualify for our [Premium/VIP/Gold] account tier. This means:

- Your spreads drop from [X] to [Y] pips
- You get priority execution
- Dedicated analyst access
- [Any other benefit]

And there's no extra cost – it's based on your activity.  
Want me to upgrade you right now?"

IF THEY HESITATE:

YOU: "There's literally no downside – same account, better conditions. Most traders in your bracket are already on this tier. Let me activate it for you and you'll see the difference on your next trade."

## ***Script 4: IB (Introducing Broker) Recruitment***

**Scenario:** Calling someone who has a trading community, YouTube channel, or social following.

YOU: "Hi [Name], this is [Your Name] from [Broker]'s partnership team. I've been following your [content/channel/community] and I'm really impressed with what you've built."

[Genuine compliment – be specific about something they did]

YOU: "The reason I'm calling – we have a partnership program where content creators and community leaders like you earn revenue every time someone in your network trades.

We're talking \$7 to \$15 per lot, depending on the tier. One of our partners with a similar audience size to yours earned \$4,200 last month passively.

Would you be open to a quick 10-minute call this week where I can show you the numbers?"

IF "HOW DOES IT WORK?":

YOU: "Simple. We give you a unique referral link. Anyone who signs up and trades through that link – you earn commission on every trade they make. Forever. No cap.

We handle all the support, compliance, and platform. You just share your link with your audience. When can we do a proper walkthrough?"

## ***Script 5: Calling Competitors' Clients***

**Scenario:** You have a list of traders currently with another broker.

YOU: "Hey [Name], [Your Name] from [Broker]. Quick question – are you still trading with [Competitor]?"

[If YES]

YOU: "Cool. I'm not going to bash them – they're a decent broker.

But I am curious – if you could improve ONE thing about your current setup, what would it be?"

[LISTEN – they will reveal their pain point]

COMMON ANSWERS:

- "Spreads are too high" → Show your spread comparison
- "Withdrawals take forever" → Highlight your same-day processing
- "Platform crashes" → Demo your platform stability stats
- "No good support" → Emphasize your dedicated manager model

YOU: "What if I told you we solve exactly that? Here's what I suggest – open a secondary account with us, deposit the minimum, and run both side by side for a week.

If we're not better, no hard feelings. But if we are – and I'm confident we will be – you'll know exactly where your money should be. Fair?"

## ***Script 6: Post-Deposit Welcome Call***

**Scenario:** Client just made their first deposit. Cement the relationship.

YOU: "Hi [Name], [Your Name] – your dedicated manager at [Broker]. I just wanted to personally welcome you. Your deposit of [\$X] is confirmed and ready to trade.

Before you place your first trade, I want to make sure you have everything set up correctly. Do you have 3 minutes?"

[Walk them through:]

1. Platform access confirmed
2. Leverage settings correct for their risk level
3. They know where to find charts/analysis
4. They have your direct contact for questions

YOU: "One last thing – I'm here Monday to Friday, [hours]. If you ever have a question about a trade or need market insight, just message me. I'm not a robot – I'm your person here. Good luck on your first trade!"

## ***Script 7: High-Net-Worth (HNW) Prospecting***

**Scenario:** Calling a qualified high-value lead (\$50K+ potential).

YOU: "Good [morning/afternoon] [Mr./Mrs. Last Name], this is [Your Full Name], Senior Account Director at [Broker Name].

I'm reaching out because we typically work with professionals who have investment capital above \$50,000, and I believe there may be an opportunity worth discussing.

Do you have 90 seconds? I'll be brief."

[If YES]

YOU: "Thank you. In short – we provide institutional-grade forex and CFD execution with:

- Raw spreads from 0.0 pips
- Segregated accounts with tier-1 bank custody
- Personal portfolio analysis
- And priority withdrawals processed same-hour

Many of our premium clients came from [competitor names] because they needed execution at scale without slippage.

Rather than pitch you over the phone – would it make sense for me to send you our institutional brochure, and then we schedule a 15-minute call where I can answer any questions specific to your situation?"

[SOFT CLOSE – no pressure, respect their time]

## CHAPTER 6: REAL ESTATE — COMPLETE SCRIPT LIBRARY

### ***Script 1: Expired Listing Call***

**Scenario:** Homeowner's listing expired with previous agent. They're frustrated.

YOU: "Hi [Name], this is [Your Name] with [Agency]. I noticed your home on [Street] was on the market but didn't sell. I'm sorry to hear that – that's frustrating.

Quick question – are you still interested in selling, or have you decided to stay?"

[If still interested]

YOU: "Got it. Can I ask – what do you think went wrong? Was it the price, the marketing, the showings, or something else?"

[LISTEN – this is gold. They'll tell you exactly what the previous agent did wrong]

YOU: "I appreciate you sharing that. Here's what I do differently:

[Address their specific complaint with your solution]

I'd love to come by for 15 minutes – no obligation – show you my marketing plan and give you an updated valuation. Would [Tuesday at 2] or [Wednesday at 4] work better?"

### ***Script 2: FSBO (For Sale By Owner)***

**Scenario:** Homeowner is trying to sell without an agent.

YOU: "Hi [Name], I'm [Your Name] – I'm a local agent and I saw your home listed for sale by owner. Beautiful property.

I'm not calling to pressure you into listing with me.  
But I am curious – how's it going so far? Getting much interest?"

[LISTEN – they'll usually admit it's harder than expected]

YOU: "Yeah, that's common. The marketing reach is the biggest challenge for most FSB0 sellers.

Here's a question – if I could get you a qualified buyer within 30 days AND net you more money even after my commission – would that be worth a conversation?

I've done this 3 times this year on [nearby street].  
Can I pop by Saturday and show you the numbers?  
No obligation – worst case, you get a free professional market analysis."

### ***Script 3: Circle Prospecting (Neighborhood Call)***

**Scenario:** A home just sold nearby. Call other homeowners in the area.

YOU: "Hi [Name], this is [Your Name] with [Agency]. I'm calling because I just sold [address/description] in your neighborhood for [\$X] – which is [X%] above asking price.

The reason I'm reaching out – I have buyers who missed out on that property and are specifically looking in your area.

Have you or anyone you know considered selling in the next 6-12 months?"

[If NO]

YOU: "Totally fine. But just so you know – based on that sale, your home's estimated value has likely increased to around [\$X]. Would you like me to send you a free market report for your specific property? No strings attached."

[If YES/MAYBE]

YOU: "Great. I'd love to come by for 10 minutes, give you an honest valuation, and discuss timing. I have [time option A] or [time option B] – which works better?"

### ***Script 4: Buyer Lead Follow-Up***

**Scenario:** Someone inquired about a property online but hasn't responded to emails.

YOU: "Hey [Name], [Your Name] from [Agency]. I saw you were

looking at [property address] on [platform].

That one's getting a lot of interest – I just wanted to reach out quickly. Are you actively looking, or just browsing to get a feel for the market?"

[If actively looking]

YOU: "Awesome. Tell me – what's most important to you? Location, size, budget, or something specific like a garage or garden?"

[LISTEN and qualify]

YOU: "I actually have [2-3] properties that might be a better fit based on what you just said. Would you like me to send them over, or better yet – I could arrange viewings this weekend. What works for you?"

## ***Script 5: Investor/Landlord Prospecting***

**Scenario:** Calling known property investors for new opportunities.

YOU: "Hi [Name], [Your Name] from [Agency]. I specialize in investment properties in [area]. I understand you have [X properties] in the area – correct?"

[Confirm]

YOU: "The reason I'm calling – I've got access to [off-market deals / below-market properties / distressed sales] that haven't hit the portals yet.

Given your portfolio, I thought you'd want first look before they go public. The numbers on these are:

- Purchase price: [\$X]
- Rental yield: [X%]
- Below market value by: [X%]

Would you like me to email the full details, or do you have 5 minutes now to discuss?"

## ***Script 6: Relocation Specialist Call***

**Scenario:** Targeting people relocating for work (corporate relocation leads).

YOU: "Hi [Name], this is [Your Name] – I'm a relocation specialist with [Agency] in [City]. I understand you may be moving to the area for work?

I help professionals find the right home quickly so they can focus on their new role without the stress of house hunting. Have you started looking yet, or are you still figuring out

the area?"

[LISTEN – then provide value]

YOU: "What I can do is send you a personalized area guide – best neighborhoods for [their situation: families/commuters/etc], price ranges, school ratings, commute times.

And if you'd like, I can set up 4-5 viewings in one day so you're not wasting multiple trips. Would that be helpful?"

## CHAPTER 7: OBJECTION HANDLING ENCYCLOPEDIA

### *The LAER Framework (Listen → Acknowledge → Explore → Respond)*

Never argue with an objection. Flow through it.

### **FOREX BROKER OBJECTIONS**

#### **"I'm not interested"**

YOU: "I totally get it – most people aren't at first. But just out of curiosity, is it that you're not interested in trading at all, or just not interested right now?"

[This reopens the conversation 40% of the time]

#### **"I don't have money to invest"**

YOU: "I hear you. The good news is you can start with as little as [\$50-100]. Many of our top clients started with exactly that. It's more about learning the skill than the amount. Would a small starting account make sense for you?"

#### **"I already have a broker"**

YOU: "Perfect – that means you already understand the value of trading. I'm not asking you to leave them. But what if you could compare us side by side? Open a second account, test our execution, and keep whatever gives you better results. Fair enough?"

#### **"Is this a scam?"**

YOU: "Great question – I love that you're cautious. We're regulated by [FCA/CySEC/ASIC], registration number [X]. You can verify us on the regulator's website right now. Your funds are held in segregated accounts at [Bank Name]. Would you like me to send you the verification links?"

### **"I lost money trading before"**

YOU: "I'm sorry to hear that. Can I ask – did you have proper guidance and a risk management plan? Most people who lose don't have either. What we provide is a dedicated manager who helps you with position sizing and risk rules. Would you be open to trying it with proper support this time?"

### **"I need to think about it"**

YOU: "Of course. What specifically would you like to think about? Is it the money, the risk, or something else? Maybe I can help clarify right now so you don't have to wonder."

### **"Send me an email"**

YOU: "Happy to. But honestly, most emails end up unread in promotions folders. Can I take 30 more seconds to give you the key points, and THEN send a follow-up email with everything? That way you actually know what you're reading."

## ***REAL ESTATE OBJECTIONS***

### **"We're not selling right now"**

YOU: "Totally fine. I'm not suggesting you should. But would it be useful to know what your home is worth in today's market? That way, when the time is right, you'll already have the information. I can send you a free valuation – no obligation."

### **"We already have an agent"**

YOU: "Good to hear you're working with someone. How's it going so far? ... [LISTEN] ... If you're ever looking for a second opinion or a fresh approach, I'm just a call away. Can I check back in [30/60] days?"

### **"Your commission is too high"**

YOU: "I understand – commissions feel like a big number. But let me show you the math: my marketing and strategy typically gets [X%] more than comparable homes. So even after my fee, you NET more. Would you like me to show you the numbers on recent sales?"

### **"We want to try selling ourselves first"**

YOU: "Totally respect that. Many of my clients tried FSBO first. Here's what I'd suggest – give it 30 days. If you're not getting qualified offers, let's talk. In the meantime, can I give you a few tips to maximize your exposure? No strings attached."

### **"The market is bad right now"**

YOU: "I hear that a lot. But here's the thing – in any market,

homes that are priced right and marketed well still sell fast. [Address/nearby home] just sold in [X days] at [X%] of asking. It's not the market – it's the strategy. Would you like to see what a targeted approach looks like?"

**"I need to talk to my spouse"**

YOU: "Absolutely – it's a big decision. Would it make sense for me to schedule a quick 15-minute chat with both of you? That way you can both ask questions at the same time. What evening works best?"

## CHAPTER 8: THE FOLLOW-UP SYSTEM

### *Why Follow-Up is Where Money Lives*

**Statistics that matter:**

- 48% of salespeople never make a single follow-up call
- 80% of deals require 5+ contacts to close
- The average salesperson gives up after 2 attempts

### *The 7-Touch Follow-Up Sequence*

DAY 1: Initial cold call  
DAY 2: WhatsApp/SMS – "Hey [Name], [Your Name] from yesterday. Just wanted to share [quick value point]. No rush!"  
DAY 4: Email – Market insight or educational content  
DAY 7: Second call – "Checking in, [reference previous convo]"  
DAY 10: Social media engagement – like/comment their post  
DAY 14: Third call – New angle or fresh offer  
DAY 21: "Break-up" message – "Hey [Name], I've tried reaching out a few times. I'll assume the timing isn't right. If anything changes, I'm here. Wishing you well!"

### *The Break-Up Message (Most Powerful Follow-Up Tool)*

The break-up message works because it removes pressure and triggers loss aversion.

**WhatsApp version:**

*"Hi [Name], I've tried reaching you a couple of times about [topic]. I don't want to be a pest, so I'll leave it here. If you ever want to explore this, you've got my number. All the best!"*

**Response rate on break-up messages: 30-40%** — because people fear missing out when you stop chasing.

## CRM Notes Template

After every call, log:

Name: \_\_\_\_\_  
Date/Time: \_\_\_\_\_  
Outcome: Connected / Voicemail / Wrong Number / Callback  
Interest Level: Hot / Warm / Cold  
Key Info Learned: \_\_\_\_\_  
Objection Raised: \_\_\_\_\_  
Next Action: \_\_\_\_\_  
Next Contact Date: \_\_\_\_\_

## CHAPTER 9: METRICS, KPIs & DAILY ROUTINES

### The Numbers You Must Track

| Metric                    | Target (Forex)          | Target (Real Estate)    |
|---------------------------|-------------------------|-------------------------|
| -----                     | -----                   | -----                   |
| Dials per day             | 80-120                  | 40-60                   |
| Conversations (connected) | 20-30                   | 10-15                   |
| Appointments/Demos set    | 3-5                     | 2-3                     |
| Conversions (per week)    | 5-10 new accounts       | 1-2 listings            |
| Connection rate           | 25-35%                  | 20-30%                  |
| Appointment set rate      | 15-20% of conversations | 15-25% of conversations |

### The Ideal Daily Schedule

| TIME        | FOREX BROKER AGENT         | REAL ESTATE AGENT          |
|-------------|----------------------------|----------------------------|
| 08:00-08:30 | Review leads, prep CRM     | Check new listings, prep   |
| 08:30-09:00 | Team huddle / targets      | Market research            |
| 09:00-11:00 | POWER CALLING SESSION #1   | POWER CALLING SESSION #1   |
| 11:00-11:15 | Break + log notes          | Break + log notes          |
| 11:15-12:00 | Follow-up calls & emails   | Follow-up calls & emails   |
| 12:00-13:00 | Lunch                      | Lunch                      |
| 13:00-14:30 | POWER CALLING SESSION #2   | Property viewings          |
| 14:30-15:00 | Client onboarding calls    | Client follow-ups          |
| 15:00-16:00 | POWER CALLING SESSION #3   | POWER CALLING SESSION #2   |
| 16:00-16:30 | Admin, CRM updates         | CRM updates, tomorrow prep |
| 16:30-17:00 | Training / script practice | Training / market study    |

### The Power Hour Rules

During power calling sessions:

1. **No email** — close your inbox
2. **No social media** — phone in airplane mode (use desk phone/dialer)
3. **No breaks between calls** — dial immediately after hanging up
4. **Stand up** — better energy and projection
5. **Smile** — it changes everything about your tone

## **Weekly Review Questions**

Every Friday, ask yourself:

1. How many dials did I make this week?
2. What was my connection rate?
3. What was my appointment-set rate?
4. Which objection came up most? Am I handling it well?
5. What's my pipeline value for next week?
6. What ONE thing can I improve next week?

# **CHAPTER 10: ADVANCED TECHNIQUES & CLOSING**

## **Technique 1: The Straight Line Close (Jordan Belfort)**

Keep the conversation moving in one direction — toward the close. Every time the prospect goes off track, bring them back to the line.

"I hear what you're saying, [Name]. Let me ask you this – if I could solve [their concern], would you be ready to move forward today?"

## **Technique 2: The Assumptive Close**

Don't ask IF they want to proceed. Ask HOW they want to proceed.

FOREX: "Should I set your account to standard or ECN execution?"  
REAL ESTATE: "Would you prefer Tuesday or Thursday for the viewing?"

## **Technique 3: The Takeaway Close (Grant Cardone)**

Create urgency by suggesting the opportunity might not be available.

FOREX: "Honestly, this bonus promotion ends Friday. After that, the 100% deposit match disappears. If you're going to start, this week is the time."

REAL ESTATE: "I've got two other buyers looking at this property tomorrow. I can't hold it, but I can get you in first if we move now."

### ***Technique 4: The Social Proof Close***

People follow people. Use it.

FOREX: "I onboarded 6 new clients from [their country/city] this month alone. Most of them started with exactly your budget. They're already seeing results."

REAL ESTATE: "Three homes on this street sold in under 2 weeks this month. The market in this neighborhood is moving — and it won't wait."

### ***Technique 5: The Puppy Dog Close***

Let them try it risk-free. Like a pet store letting you take the puppy home — you'll never return it.

FOREX: "Tell you what — open the account, deposit the minimum [\$50], and trade for one week. If you don't love it, withdraw everything. No fees, no hassle. Deal?"

REAL ESTATE: "Come see the property. No commitment. Walk through it once — if it doesn't feel right, I'll never bring it up again. But if it does... you'll thank me for making the call."

### ***Technique 6: The Emotion + Logic Stack***

Close with emotion first, then validate with logic.

FOREX: "Imagine waking up 6 months from now with a skill that generates income regardless of your job. That's what trading gives you. And the math supports it — even 2% monthly on \$1,000 compounds to real money within a year."

REAL ESTATE: "Picture your family in that kitchen every Sunday morning — that's what a home is about. And the numbers work too: you're paying less per month than rent, and building equity."

### ***Technique 7: Chris Voss "Labeling" Technique***

Label their emotion to disarm resistance.

"It sounds like you're feeling cautious about this..."

"It seems like timing is the real issue here..."  
"It looks like you've been burned before..."

[Then silence. Let them confirm and open up.]

## THE GOLDEN RULES OF CLOSING

1. **Always ask.** 100% of unasked closes are lost.
2. **Silence after the close.** The first person to speak loses.
3. **Close 3 times minimum.** Most prospects need 3 attempts.
4. **Every close must offer value.** Never pressure without benefit.
5. **Confidence is non-negotiable.** If YOU hesitate, they hesitate.

## BONUS: QUICK REFERENCE CHEAT SHEETS

## Forex Broker — Call Flow Cheat Sheet

|    |                                        |  |
|----|----------------------------------------|--|
| 1. | "Hi [Name], [You] from [Broker]"       |  |
| 2. | Pattern interrupt / permission frame   |  |
| 3. | "What interested you in trading?"      |  |
| 4. | LISTEN → identify need                 |  |
| 5. | Match need to your offer               |  |
| 6. | Handle 1-2 objections using LAER       |  |
| 7. | "Let me set up your account right now" |  |
| 8. | Confirm next step / send link          |  |
| 9. | Log in CRM immediately                 |  |

## Real Estate — Call Flow Cheat Sheet

- 1. "Hi [Name], [You] from [Agency]"
- 2. Local value hook (recent sale/market data)
- 3. "Are you thinking about selling in [timeframe]?"
- 4. LISTEN → identify motivation
- 5. Share relevant success story
- 6. Handle 1-2 objections using LAER
- 7. "Would [Day] or [Day] work for a quick chat?"
- 8. Confirm appointment details
- 9. Send calendar invite + log in CRM

## Power Words to Use

| Instead of... | Say... |  
|-----|-----|  
| Cost/Price | Investment |  
| Contract | Agreement / Paperwork |  
| Buy | Own / Secure |  
| Sell | Find the right buyer for |  
| Cheap | Affordable / Value |  
| Problem | Challenge / Situation |  
| Commission | Professional fee |  
| Cold call | Reaching out / Connecting |

## ***Tonality Guide***

| Situation | Tone |  
|-----|-----|  
| Opening | Upbeat, curious, warm |  
| Asking questions | Genuinely interested, slower pace |  
| Delivering value | Confident, clear, steady |  
| Handling objections | Empathetic, calm, reassuring |  
| Closing | Direct, certain, slightly lower pitch |  
| Follow-up | Friendly, no pressure, helpful |

## **FINAL WORDS**

Cold calling isn't about being pushy. It's about being prepared, being persistent, and being genuinely helpful.

The scripts in this book work — but only if YOU work them. Practice daily. Record yourself. Get feedback. Track your numbers. And never, ever stop dialing.

The difference between a struggling salesperson and a top earner isn't talent. It's reps.
